Philadelphia, PA 19103

Attention: Ms. Gerallyn Duke

Ms. Duke,

Attached is the renewal of Title V Permit 39-00055 for B. Braun Medical, Inc..

B. Braun Medical Inc. recently purchased a natural minor facility that was adjacent to their existing Title V facility. The natural minor facility was owned by Sure Fit Inc. and was permitted under permit number 39-00038. The natural minor facility has two boilers that are being incorporated into the Title V Permit.

The renewal of Title V facility includes some minor changes to the permit. A few of the changes were to the requirements in 40 CFR Part 63, Subpart O – Ethylene Oxide Emissions Standards for Sterilization Facilities. The changes reflect the requirements in Subpart O as they are currently published. The previous Title V permit contained the requirements of Subpart O as they were published at the time the initial permit was issued. All other minor changes are contained in the Title V renewal application.

If you have any questions or concerns, please feel free to contact me via email or at the telephone number listed.

Thank you,

Norman Frederick P.E.; Manager, Facility Permitting Section
